## **PRESIDENT'S REPORT**

As I've said for a couple of years, I'd really like to stand down as President. I love dowsing and teaching people about it, but I feel like I've done my stint as President and would like someone else to have a turn. However, to take over the person needs to come from within the Committee. Although the current incumbents do a terrific job, none of them feel able to step up to this role. Therefore, I'm hoping we may encourage at least two new people to stand for the Committee at our Annual General Meeting (AGM) which will be held before the next meeting. If you'd like to join our merry band, please come forward. You'll have until April 2020 to think about taking a bigger role. It's not as though you have to commit right now. However, for the DSV to continue we must be able to welcome some fresh, new faces to our team.

Heather Wilks is also looking for an assistant to step up to Newsletter Editor's role. They are hard shoes to fill, but not impossible, as she is more than willing to assist in handing over.

The DSV would like to know of people who dowse for water, so if you know of anyone, please give us their contact details. We often receive requests and it's quite odd really that there aren't more water diviners in our midst. After all, that's how most people think of dowsing – divining for water.

Following our AGM on 28 April we will screen a video we recorded in Ballarat. I interviewed Barry Templeton, horse chiropractor, homeopath and dowser. He is a very interesting person and we hope you'll enjoy listening to his stories. We had a wonderful day sharing with him, and he kindly donated 3 Radionics machines to our Society.

We look forward to seeing you at the next meeting on 28 April.

**Lyn Wood, *President***

## **OUR NEXT MEETING**

**We aim to keep the formalities short at our AGM which is to be held on Sunday 28 April. We're all keen to move onto the day's main feature.**

**To be eligible to vote or nominate for the DSV Committee, you need to be a paid-up member. We invite you to consider standing for a position yourself. New ideas and new energy are always welcome at the DSV. As Lyn Wood explained in her President's Report above, it has now become essential for our future that we have new people joining us on the Committee. It will allow those who need to step aside from the DSV Committee to do so without undue strain and stress.**

**We're a friendly bunch and joining us gives you the opportunity to contribute directly to the DSV and discover more.**

In January, a small group of DSV members, led by Lyn Wood, travelled to Ballarat in central Victoria to meet and interview Barry Templeton.

We are screening the interview at the DSV meeting after the AGM preliminaries.

Barry spoke uses hair analysis combined with homeopathic medications and non-invasive radionics procedures to treat various problems.

He works with race horses and greyhounds, getting involved in their nutritional needs and providing specialised treatments.

We hope you'll join us on Sunday 28 April for this unique interview on film.

You can contact Barry on (03) 5335 5629 and/or view his website:

### OUR LAST MEETING

Debbie Swingler was well received at our February meeting. As the Vice-President of the Tumbetin Spiritualist Centre in nearby Upwey, she conducted a mini workshop to show us different facets of dowsing to contact spirits.

She is a qualified clinical hypnotherapist and NLP practitioner. She runs or tutors weekly groups which cover physical séances, mediumship training, psychic development and meditation.

Debbie is Vice-President of the Tumbetin Spiritualist Centre in Upwey, located in the beautiful Dandenong Ranges on the outskirts of metropolitan Melbourne.

### UNIVERSAL DOWSING SYSTEM

*Thanks to Chris Gerrett for this dowsing article.*

On the morning of the 2018 Melbourne Cup, my daughter Emma was using her dog to pick the cup winner. This is Australia's famous horse race that literally 'stops the nation'. Even people who don't normally follow racing or have a bet usually have an interest in who wins.

After watching Emma working with paper balls for her dog Tilly to pick the winner, I decided that maybe dowsing for the winner wouldn't be such a long shot after all.

I proceeded to ask if I could choose the winner of the 2018 Melbourne Cup by dowsing and received a YES. Was it allowed, acceptable, possible for me to choose the winner this way? I asked in every way I could think of and each time received a firm YES. I started to count down. 1 no, 2 no, 3 no until I got up to 20 and asked Emma how many horses were running. Twenty-five she said, so I kept going. That was until I reach 23 and my pendulum surprised me by swinging to the YES. I count up three times and each time received a yes at 23 for a place.

Well, Emma placed the bets at the TAB for me and I proceeded on to work. I told my husband what I had done and he laughed at me and said that this particular horse was not expected home until 5.00 pm, well after the race ended. Work was so busy that the race was over before we thought to switch on the radio. Good heavens, yes, No 23 had won!!!

At the time I had also been doing the manifestation exercises from the book 'E Squared' by Pam Grout.

Not wanting to ask too much straight up, **on 4 November 2018 I asked for a wonderful surprise for us all in the next 48 hours.** That could be anything right?

As I was leaving work, welcome rain started. After just two minutes on the road, to my right I saw an absolutely perfect, fully-formed rainbow. Then a second one appeared. As I turned to the main road, following the double rainbow, and there right in front of me, was a third one. I felt that I could have driven right underneath it. It was the most miraculous sight. I have seen double ones before but never a triple – all perfectly clear and in their full arch. At the TAB I collected \$600.

So, it was **a most wonderful surprise for all of us and all within 48 hours.** Three beautifully formed, intensely-coloured rainbows and a Melbourne Cup win.

## CHANGING ENERGY FOR A SWIMMING POOL

*Thanks to DSV President Lyn Wood for another reminder of how powerful changing energy can be.*

In preparing our swimming pool for summer, we bought a new vacuum to help with the job.

In the meantime, I had started playing Raymon Grace's DVD for Energising Water in our office which looks over the pool. That DVD became stuck in our laptop so I repeated it a couple of times. A water sample at the pool shop showed that it was almost perfect. We only needed to make a slight adjustment to the pH of the water.

This was so unusual of course. I knew without doubt that it had to have been Raymon's DVD that had cleaned our pool so well.

There have been a number of comments at the DSV by members who have found that water energised Raymon's way significantly lengthens life in a vase for cut flowers. The flowers last so much longer than is usual.
