PRESIDENT'S REPORT

We had a very lively discussion during and after the presentation at our last meeting. Brett Hedger from *House In Harmony* spoke about many ways to reduce energy usage in our homes. Like many of us, he believes in walking lightly on the earth, which involves recycling, and reusing – as well as harnessing energy from the sun, instead of from the earth. He urged us to be discerning when we shop, choosing products made in Australia where possible.

At our next meeting on 16th October Committee Member, Tony Hill, will speak about Dowsing, Radionics and Subtle Energy. This promises to be a very interesting presentation for dowsers and energy healers alike.

As we live in a world with increasing electromagnetic radiation (EMR) and other harmful frequencies, I've been wondering about the best ways to protect ourselves. It's raised a lot of questions in my mind. I've been thinking, is it enough to simply hold the intention that we won't be affected by any of the damaging influences around us? To me, young people seem to be oblivious of the many dangers. Perhaps their DNA is different to ours – are they wired to cope with EMR? Are we really able to put ourselves in a protective bubble? Do we need physical devices or not? Tony will touch on these issues and more in his presentation. So, do bring a friend to share it.

Just a reminder too that we'd love others to share their dowsing experiences with us all in this newsletter. Talk to a Committee member at a meeting, or phone or email.

MY SPIRITUAL VISITORS

By DSV Member, Susane Starc

It was Friday, 13th November 2009, a superstitious day for some and a memorable one for me.

I was outside working in my vegetable garden on a very warm morning, when I decided to go inside to cool down for a few minutes. As I sat down to rest in the cool, semi-darkness of the house and was drinking some cold water, I distinctly heard sounds coming from my study, as if someone had tapped or flicked a crystal bowl. This puzzled me as I don't have any crystal in that room. Then I had an idea.

I quickly went to my study and reached for my pendulum. I was so excited, I forgot to ask permission to dows, but I also thought that I might miss my chance at catching this fantastic moment. I then asked a series of questions.

"Please show me if there are any spirits in this room?" The pendulum showed me a 'yes' response.

"MESSAGE FROM MATTHEW"

"Message From Matthew" is from the web site www.matthewbooks.com This is an Extract which was provided by Lyn Wood, our DSV President. It illustrates points in her President's Report.

Furthermore, you have the ability to help yourselves in the vibratory respect. It is understandable that the plight of many millions of people and animals is extremely distressing to sensitive, caring individuals, but please do not allow your emotions to be drawn into their traumas. The low vibrations of distress about others' anxiety, hopelessness and especially fear fracture the balance you need to keep your light steady, and that fracturing helps none of those many millions or you.
