PRESIDENT'S REPORT

Welcome to 2012, a new year with huge possibilities. I believe that as we visualise the world and future we desire, then feel it in our hearts, then we begin to manifest it. It's best to be quite specific. Use all your senses. The energies have been changing so much that our thoughts are starting to manifest into reality so much faster these days. This is also the case when keeping the energies in our properties healthy. It's important to think and say positive things, as well as being grateful for what we already have.

Hopefully you've continued dowsing over the holiday period, as the needs arose, to answer questions or find something. Perhaps you've been asking questions about what your soul direction might be this year? Maybe you've scrambled some non-beneficial energies? Or, you may have dowsed to determine where best to plant your vegetables or flowers.

There are so many people having difficulties with emotional and physical conditions who can benefit from our help. Remember to ask the all-important set up questions, Can I? Should I? May I?

I thought I'd mention that I'm running a basic pendulum workshop on 25th February. Please ask me for a brochure with more information.

We hope to be organising more Field Trips throughout the year for practical dowsing experience. If you know of a place where the energy feels particularly bad and you think it would be appropriate for us to go there for a group healing, please talk to me or one of the Committee members.

A reminder too that we'd love to hear your dowsing stories. Your story is sure to be of interest to others in our Society.

Lyn Wood, *President*

Jane's presentation was enthusiastically welcomed by all who attended -such a happy, warm, inspirational person. She shared so much of her vision to help people with dementia and also told her very personal story about its impact on herself and her family.
