PRESIDENT'S REPORT

The President of the Australian Dowsers Society, Noel Jordan spoke at our last meeting. He told me of a clearing he'd done on our hospitals and institutions on 18 January this year. It was a big clearing on public places, including hospitals across the whole country. In early February my mother was admitted to hospital for a few days for tests. Each time I visited her I was surprised to find that the hospital didn't feel as "negative" as it usually did. With this observation I told Noel that I felt his clearing had worked well.

Many years ago when I was dowsing a farmhouse with George Williams (the founder of the DSV), we discovered that all door frames in the house had non-beneficial energy on them. George was perplexed as he'd never come across anything like it before. He said it was going to take a long time to go around the house clearing each one. Then I suggested we try to do them all at once. "Oh, what a good idea, girly," he said, and we were overjoyed when it worked!

Also, some of you know of the work Heather Wilks has initiated and shared with other dowsers, with scrambling to change the extreme weather conditions. It seems to have helped relieve some of the heat, reduced strong winds, lowered humidity and possibly dissuaded some arsonists. This was thinking big too, and it was empowering to think we could do something to help ourselves.

At the next meeting, our short AGM formalities will be followed by a "Roving Microphone" discussion on dowsing to find out who's doing what and what's working best.

Lyn Wood, President

OUR NEXT MEETING

Our AGM will precede our speaker at our next meeting on 21 April. As usual, we'll keep the formalities very short so that we can move on.

Just to let you know that all positions will be declared vacant and a new Committee elected. Many of the current Committee are prepared to stand again. However, we are looking for someone to step into the roles of Assistant Treasurer and Newsletter Editor. If you've been a member for more than a year and would like to contribute to the running of our Society please come forward on the day or contact a Committee member beforehand.

All memberships are due, so to be eligible to vote, or to stand for the DSV Committee, you need to be financial so please arrange to pay on or before 21 April 2013.

We have some alterations we need to make to the DSV Constitution as things have changed since its inception in 1997. We need your vote on a few formalities. All the changes will be available to view prior to the meeting.

OUR NEXT MEETING

On Sunday 21 April we're doing something quite different. We'll have a "Roving Microphone", with Lyn Wood and Heather Wilks inviting dowsing comments and questions.

It will be a bit similar to the Dowsters' Panel we held in November 2012 which was so successful. The difference this time is that it will be less formal with just two at the front and the emphasis more with you as part of the audience.

Think of it like a sort of live Chat Room. It will be fun, informative and totally concentrated on dowsing. Look forward to seeing you on 21 April and feel free to bring a friend or two along.

OUR LAST MEETING

Noel Jordan from the Australian Dowsing Society (ASD) presented at our meeting in February. He spoke about his various experiences of communicating with other species telepathically and he entertained us with amusing anecdotes.

DOWSING JOURNEYS

*Developed from an interview by DSV Member,
Bernadette Hogan, as part of an ongoing segment.*

Erika L. Soul - My first experience of Energy Dowsing was in 2011 watching Raymon Grace's "Blueprint for Freedom" video online. It really interested me and started my Energy dowsing journey. I liked Raymon Grace's laidback style.

I had come across pendulums and dowsing for answers to questions before and had dabbled with it and read up on how to use a pendulum but not in regard to changing energies, clearing programs and much more.

INTERNATIONAL DOWSING DAY

Saturday 5 May 2013 is International Dowsing Day (IDD).

DSV President Lyn Wood will again be at Jell's Park in Wheeler's Hill at 2.00 pm, near the café and you're invited. Lyn will be dowsing energy lines, auras of trees and people, as well as sharing her dowsing knowledge.

FOR SALE

Bby DSV Life Member, Mick Moran

I guess this story started a few years ago when a friend of mine sold his house and moved interstate. I didn't know who bought the house, but as I ride past it every day on my bike, I knew it would only be a matter of time

before I met Geoff, the new owner. One day Geoff invited me in for a cuppa. The house of course hadn't changed. Only the furnishings were different, but the feel was different. I told Geoff about dowsing and my ability to detect certain energies, particularly negative energies.

I asked if he wanted me to clear the negativity out of the house, but he said he wanted his wife to see what she thought about it. She would be fascinated to think there may be a spirit present, but she was living overseas at the moment and should be home shortly. I said if he changed his mind to let me know.

I didn't see much of Geoff over the next 12 months, but I was very surprised one day to notice his house was up for sale.

Months went by and there was no sign of the house selling. After almost a year I spoke to Geoff again. He told me plenty of people had been through the house but no one was interested in buying it. I then asked if he could remember me telling him of the possibility of lots of negativity in the house, and the fact he didn't want me to clear it. He said he remembered it well and maybe he made a mistake in not having the house cleared.

With the use of a pendulum and my dowsing chart I soon learnt that the energy of Geoff's house was just 27%. (There weren't any entities in the house.) I then proceeded to clear all the negativity from the house replacing it with positive, peaceful, healing universal energy. The effect was instant. The energy levels immediately increased to 100%. A bit later I came to realise there was a problem was coming from the house next door to Geoff's. Although I had never been inside that place, I knew the energy was very low. I checked it and found it was only 20%, and I also checked to see if there was any reason for the very low energy. There was, and it was in the form of a female spirit entity. I believe she had been at the house for almost two years, and was the reason for all the low energies in both houses.

I moved the spirit on and did a full clearing of the house. The energy levels of the house went straight to 100%.

Over the years I have cleared and healed a number of properties, one as far away as

Blackpool in England. All of these were done from my home in Western Victoria as I don't believe it's necessary to visit the properties in question. When I can feel the spirits moving on I ask that if it is at all possible, could they return the favour and help me with further clearings and healing. I believe this has helped as I now find it easier to clear houses.
