PRESIDENT'S REPORT

My husband Phil and I are moving house in a few weeks. We've lived in our Bayswater home for 36 years. I am having a wonderful time finding things I didn't know I had, and throwing out lots of things I no longer need. This seems to be very cathartic as I'm clearing or doing a total spring clean at the same time.

It seems to be helping me as fortunately I don't seem to be feeling a lot of the stuckness and other manifestations from the energy changes that are currently happening. Even things that are coming to light that some people find alarming, I feel are actually good because things are being dealt with and hopefully will be replaced with something better. At this time, I'm sure it helps for us to keep grounded and protected. Remember scrambling with dowsing is one easy way to clear any harmful energies and replace them with beneficial energies. Then it's also good to look for the new and wonderful things coming along.

I'm looking forward to the speaker at our next meeting. Dennis Toop will provide practical tips for your dowsing. He was so well received some years ago when he presented to the DSV. His stories about how he dowsed properties which had been difficult to sell were fascinating. After his clearings they sold very quickly for the owners and real estate agents involved.

Just a reminder that membership renewals are due at the beginning of the year so if you have overlooked this, could you please pay as you enter the room at the next meeting. Or you can mail a cheque or money order to The DSV, PO Box 2635, Mount Waverley Vic 3149.

OUR NEXT MEETING

The DSV is pleased to announce that South Australian dowser Dennis Toop, Treasurer of the SA Dowsters' Club, will present at our next meeting on Sunday 20 October 2013. He entertained us with his dowsing experiences back in 2009 and now has some new experiences to share.

Dennis' dowsing experience covers useable water, sick houses, feng shui, power line radiation and earth energy radiations.

He has a particular interest in remotely dowsing "unsaleable" properties", which to the naked eye look to be perfectly good houses. He enjoys changing the energy to the astonishment of some local real estate agents

Dennis also has a keen interest in "Reverse Speech" which he feels ties a lot of what dowsers stumble across and can't easily explain. It has joined the dots for him personally.

We look forward to seeing you at the next meeting. Feel free to bring a friend or two.

OUR LAST MEETING

At our August meeting we met Maya Ward who spoke warmly about her pilgrimage along the Yarra River. She read extracts from her book, "The Comfort of Water", which relates details of her physical, emotional and spiritual journey along the river. This was interspersed with conversation about her travels.

DOWSING JOURNEYS

Developed from an interview by DSV Member, Bernadette Hogan, as part of an ongoing segment.

Jan Juniper - I was introduced to dowsing by a health food store holder. He used a pendulum to diagnose what vitamins and minerals I required to regain my health.

Once he retired I then decided I had to learn how to use a pendulum for myself.

BOOK REVIEW

"Stone Age Farming" 2nd Edition, by Alanna Moore. Reviewed by François Capmeil, Editor of the Newsletter for the Dowsers Society of NSW. (Reprinted from their Sept 2013 issue, with permission.)

In August I received a book for review from Alanna Moore, called 'Stone Age Farming', Tapping Nature's Subtle Energies for your Farm or Garden, 2nd Edition.

Others who have reviewed this book have said: "Every so often, a book comes along that will change your perception of the world. Stone Age Farming is such a book" and I wholeheartedly concur.

This book is so interesting and so compelling that I could not put it down.

(Alanna Moore will present to the DSV on Sunday 24 November. Make it a date! Ed.)

ALBERT EINSTEIN ON DOWSING

Albert Einstein was convinced of the authenticity of dowsing. He said, "I know very well that many scientists consider dowsing as they do astrology, as a type of ancient superstition. According to my conviction this is, however, unjustified. The dowsing rod is a simple instrument which shows the reaction of the human nervous system to certain factors which are unknown to us at this time."

DSV RECORDINGS ON CD

We now have 27 speakers available on CD:

The CDs from our various presentations are available at meetings for \$5 each, and are a great idea for listening to at your leisure, giving as a gift, or if you missed a speaker you really wanted to hear.

Please note this is an Extract of the DSV October 2013 newsletter. You can join the DSV via this site to received the full edition.

Please write the DSV Meeting Dates in your diary today:

2013 dates – Sunday 20 October & 24 November

2014 dates – Sunday 9 February, 27 April, 15 June (TBA: August, October & November)
