PRESIDENT'S REPORT

I am happy to say that Richard Summers, the UK dowser who helped some of us last year to dowse the Michael & Mary lines at Mount Dandenong, invited Heather Wilks and me to participate by Skype in a dowsing workshop.

This was conducted in the UK on 1 & 2 April. Aboriginal philosophies and Earth energies at Uluru and Kata Tjuta were discussed. We can tell you more at the next DSV meeting.

Exciting news. Heather's book "Dowsing Heals" is now available for sale in printed form at the Theosophical Society bookshop in Russell Street, Melbourne. Heather will be doing an introductory dowsing talk there at 2 pm on Saturday 8 July.

Our upcoming meeting will commence with our AGM. Then, DSV Life Member, Mick Moran, will speak to us again about his dowsing adventures involving healing.

We'd love to hear of your own dowsing successes, large and small. I urge you to let us know so that they can be included in the Newsletter. If you'd like to share your experiences anonymously, that's fine. We understand that you might prefer privacy. However, your dowsing outcomes may well inspire other dowsers.

The DSV "Shop" table offers lots of pendulums, rods, books and DVDs to help with your dowsing. Our well-stocked Library is a very good reason to join the DSV too.

Look forward to seeing you at the next DSV meeting on 23 April.

Lyn Wood, President

NEXT MEETING

Time & Date:

1.45 pm for 2.00 pm start, Sunday 23 Apr 2017

Place:

**Mount Waverley Community Centre,
Miller Crescent, Mount Waverley**

(Opposite Mount Waverley Railway Station)

Melways: 70 E 1

**Parking at rear, off Holskamp St. which runs off
Stephensons Road**

OUR NEXT MEETING

We aim to keep the formalities short at our AGM so that we can move on to the day's presentation. To be eligible to vote or nominate for the DSV Committee you need to be a paid-up member. Please consider standing for a position yourself. New ideas and new energy are always welcomed by us all at the DSV.

We're a friendly bunch and this is a great opportunity to find out more about us all.

We're very happy to be welcoming Mick Moran back to present to us on Sunday 23 April. He is a regular contributor to the DSV.

Mick Moran

Mick hails from near Ballarat in rural Victoria, Australia. He will be talking about how

basic dowsing can lead to the world of healing. He'll explain how to use a dowsing chart to get readings on energy levels of people and places.

Mick will show us how he connects to people to correct any problems with their energy levels.

He'll be talking about universal consciousness which allows for such connections. This is where Mick believes the healing power comes from.

OUR LAST MEETING

Dr. Richard Presser presented at our February meeting. Richard has a PhD in Materials Handling.

Richard Presser

Mehran Keshe

He showed a couple of videos featuring scientific details from the Keshe Foundation. Mehran Keshe is an Iranian nuclear engineer who was educated in Europe and Britain. He has created some revolutionary and transformative Keshe Plasma products, including:

1. The Healing (Pain) Pen is used for clearing pain from different parts of the body.
2. The Pain Pad emits plasma fields to penetrate up to 3 cm below the skin, helping to bring the body back into balance.

GREGG BRADON REFLECTION

Thank you to Miles Renin for this reflection on American Gregg Braden's, "Human By Design: From Evolution By Chance to Transformation by Choice". Presented at the Sofitel Hotel in Melbourne on 19 February 2017.

The program for the 8 hour workshop asked:

1. **What would it mean to discover that we're designed to live extraordinary lives that include self-healing, extended lifespans and deep intuition?**
2. **Is it possible that the advanced states of consciousness, achieved by monks, shamans, yogis and mystics, and considered rare in the past, are actually meant to be a normal part of everyday life?**
3. **How differently would we live our lives knowing that we're the result of an intentional design rather, than the product of a chance revolutionary process?**

Even though I enjoy reading Gregg Braden's books and listening to his online talks, I wasn't prepared for the real, seeing and believing being-human experience that was to unfold.

Gregg Braden

He spoke about telomeres, which were first discovered by Australian researcher and Noble Prize Winner, Professor Elizabeth Blackburn. (Gregg suggested we picture telomeres as the end caps of our shoelaces.)

Professor Elizabeth Blackburn

The DNA of every chromosome has end caps which contain the repeating segments of non-coding DNA. Shortened telomere length may be linked with cellular ageing. As cells divide, the telomere lengths shorten. Yet the end of chromosomes can lengthen too. As a result, telomeres can trigger healing and regeneration in the body, correlating with a healthy lifestyle and telomere function.

Gregg Braden explained a lot about the heart. We were guided through a three-minute heart-focused breathing technique (HeartMath modified) and another exercise to connect with our soul compass. Gregg reminded us that the heart has no laws. What is "true", is true for the moment. The body always answers but we may not be aware of it in the moment.

The end thought from his program was: "We are in position to embrace the discoveries to write our new human story and the key: the better we know ourselves, the better equipped we are for whatever life brings our way. It's this simple fact that lies at the core of this new program: Human By Design."

PLANT SPIRIT GARDENER

Review of Alanna Moore's new book. By DSV President, Lyn Wood.

I really enjoyed Alanna's latest book, "Plant Spirit Gardener". It is so full of interesting information that it's hard to do it justice in a short article. She talks about the benefits we get from plants, not just in their purifying the air, or providing shelter, but from their spirits – fairies and devas - that help them to grow. I've learned that we can encourage these spirit helpers into our own gardens.

Alanna suggests creating your garden to be a place of peace and beauty, with good energy so that both you and your plants will benefit. You can use Feng Shui in the garden.
