PRESIDENT'S REPORT

I've had a couple of magical things happen to me recently. I thought I was emailing a DSV member about a workshop I'm planning to run on a Saturday in October. I had the address slightly wrong and I had a reply from a lady in Canada. We chatted for a few emails and it was a lovely experience.

The other thing was, after steady rain for two nights, a mini lake appeared on the paddock next door. About a dozen ducks were having a wonderful time. However, the sheep were not amused, and with disgruntled baas, had to relocate to the other end of the paddock.

The Alternative Technology Association recently ran another Sustainable House Day aimed at showing people how to make their homes more energy efficient, thus saving money and the planet. This year went to the Eco Living Display Centre at The Briars Park in Mount Martha. The Briars Park is set on 230 hectares of land and contains not only an historic homestead and the Eco Centre, but a flora and fauna reserve, wetlands, BBQ and picnic facilities, a native plant nursery plus a camp.

"Teach your children what we have taught our children, that the earth is our mother. Whatever befalls the earth befalls the sons of the earth. If men spit upon the ground, they spit upon themselves.

This we know: the earth does not belong to man - man belongs to the earth. This we know. All things are connected like the blood that unites one's family. All things are connected."

I'm happy to see so many new members at the DSV. It's been great to see so many visitors lately too. Perhaps we'll arrange a Field Trip in the warmer months. They usually provide a great opportunity for people to get to chat and get to know one another.

Meanwhile, I'm looking forward to our next speaker, Mary Nicholls who will present on Brain Gym at our October meeting.

OUR LAST MEETING

Erika Soul spoke at our last meeting in August. She is a Transformational Energy Healing practitioner with many spiritual healing tools and therapies gathered over many years.

Erika spoke at length about the Energy Dowsing she uses for money, abundance and prosperity. She set the intention to deliberately create her presentation with the help of Divine energy and abundance in the moment during her talk. Erika also shared details about many of the resources available from her 'Money Miracles' website page.

RELIEF BREATHING

1. Think of a situation in your life that has been getting you down.
2. Imagine wearing a hot, heavy, clammy suit of armour. Feel it beginning to weigh your shoulders down, compressing and restricting your entire body.
3. Now, imagine easily removing the armour and enjoy breathing a huge sigh of relief.
4. For the next minute or so, breathe each breath as if it is your first breath free of the burdensome weight of armour. Enjoy it.
5. Check back. Chances are, it no longer feels as though you have a burden. You may even find yourself with new insights and a renewed sense of energy and vigour.

EXPANDED DOWSING PROTOCOL

By Heather Wilks, DSV Editor.

Start your pendulum in your NO direction, then let it swing of its own accord.

Neutralising the negative effects of the surrounding area, any X-Factor, black and other non-beneficial energies, plus any negative thought forms, limiting beliefs and any other negative interference.

Wait until your pendulum stops.

Neutralising the spirits of <grief / anger / shame / rejection / abandonment / humiliation / betrayal / injustice > and other sources of hurt.

Wait until your pendulum stops.

Now start your pendulum in your YES direction, then let it swing of its own accord for all of these steps.

Transforming the energy to the most appropriate, beneficial energy for <my/their/our> best possible future.

- Rebooting <me/them/us> to restore original strands of DNA.
- Bringing <my/their/our> polarity and body magnetism into balance with the earth, local positive energy, creative force, the elements and universal energy.
- Bringing <me/them/us> into the ideal frequency.
- Bringing family, home and animals into the ideal frequency.
- Bringing projects, business, prosperity into the ideal frequencies.
- Bringing light and sound bodies into balance.
- Balancing the blood flow between the hemispheres of the brain/s.
- Boosting blood flow to the pre-frontal cortex to heal and optimise mind-body functioning.
- Balancing right and left brain hemispheres.
- Balancing serotonin, melatonin and related brain chemistries.
- Cleaning up brain barriers to use the ideal brain chemistry efficiently and effectively.

- Raising the Life Force to 100%.
- Raising Energy Levels to the safest level.
- Inviting the spirits of love, gratitude, forgiveness, freedom, peace, joy, co-operation, courageousness, hope and prosperity into <my/their/our> life.
- Placing a safe, appropriate shield of protection around <me/them/us>, property, projects, business, finances and any other affected situations.

This or something better, from now and into the future, across all time, dimensions, space and reality – magnified with the help of spiritual dowsers and the expertise of the best dowsing knowledge of all time. Thank you.

Wait until the pendulum stops.

ARE YOU OUR NEXT DSV NEWSLETTER EDITOR?

The DSV is actively seeking a new Editor to take over my role for the Newsletter in 2018. I will be signing off from this role after the next meeting AGM in April 2018. So, that allows plenty of time to make yourself known to me or one of the other DSV Committee members.

Naturally, I'm happy to provide assistance as part of the hand over - if you need it.

Alternatively, as I suspect, you may be so advanced in such matters that you'll pick it up and run with it automatically! Editor, Heather Wilks: heather@ohnaturale.com
