PRESIDENT'S REPORT

How much of the drought stories are real? Where has rain fallen and where hasn't it? Are the farmers who need it getting aid? There are so many reports of money being raised to truck hay bales to struggling farmers, but are they receiving them? Where else needs our help? We have heard little in the news about the great need for rain in eastern Gippsland in Victoria. On the other hand, parts of Queensland have had rain, some to excessive proportions with cyclonic conditions. There have also been welcome falls in inland NSW. I think it's a good idea to ask your pendulum or your intuition to let you know what's actually happening. It helps to direct our attention to areas that still need our dowsing support. Heather Wilks was encouraged to dowse for weather by Raymon Grace on 2009 and she now encourages others.

For this issue of the DSV Newsletter I have written about Peter Andrews, a man who put himself on the line to share his methods of caring for our environment. You can read this on Page 3.

Here is a controversial question if ever there was one. Is Global Warming real? Or is it down to evolution? You can check this interesting video here: www.youtube.com/watch?v+P_FIYwg20U4

Basically, it boils down to the fact that we need to do the right thing by the land, our Earth mother. We are in the fortunate position of being able to dowse (or follow intuitive prompts), to check for the land, air, water sources, wildlife, our wellbeing.

I hope to see you at our last meeting for the year on 25 November.

Lyn Wood, President

OUR NEXT MEETING

With Raymon Grace's permission, we are pleased to be showing one of his dowsing DVDs at our next meeting on Sunday, 25 November.

The selected DVD is "*Change the Energy ... Change Your Life*". Raymon created this film to inform people about how to clear negative energy from homes, offices, schools, people, animals, and businesses.

In the first part of this DVD Raymon explains what's possible when we change energy with dowsing. In the second part he asks people to decide what they would personally like to direct changes to. When filming he deliberately set an intention to help whatever viewers are focusing on and then dowses on everyone's behalf to bring about the changes that are desired.

The feedback he's received from this film has clearly indicated that playing the DVD changes the energy wherever it is played and also that people have been able to successfully project the energy from the DVD to other locations. More proof that we are only limited by our imagination.

Raymon also encourages everyone watching to have the confidence to dowse in the ways he teaches. It empowers us to bring about changes, even when there isn't easy access to his films. It's Raymon's way of helping us to gain more control of our own lives.

So, it would be a good idea to think about a project or two beforehand the next DSV meeting. Who, or what, would you like to be helped with Raymon's assistance? That way, when you come along you'll be prepared to make the most of this great opportunity to help yourself and others.

Raymon has three websites:

www.raymongrace.us
www.raymongraceprojects.com
www.raymongracefoundation.org

OUR LAST MEETING

Dr. Gurnam Saini was the speaker at our October meeting. He was especially popular for his presentation on Ayurveda, the ancient medical system that works to achieve perfect balance between the mind, body and spirit.

Achieving such a balance is considered essential for leading a happy, healthy life. There were many questions from the floor, which Gurnam happily answered for everyone.

Ayurved is a Sanskrit word that means "knowledge of life and longevity". It is based on principles and rhythms found in nature and draws on daily and seasonal lifestyle practices which include diet, yoga and meditation, as well as healing herbs, purification therapies and a life-affirming, mental attitude. Gurnam Saini views Ayurveda as being more relevant than ever.

BACK FROM THE BRINK

Thanks very much to DSV President, Lyn Wood, for contributing this welcome, thoughtful article.

Recently, a book in the DSV Library caught my eye. It was "*Back from the Brink – How Australia's landscape can be saved*" by Peter Andrews OAM.

Some years ago I recall "Australian Story" on the ABC did an expose on Peter and his "different" methods of caring for the land. Some people were very impressed by his ideas but others thought him too way out. You can search Peter Andrews on abc.net.au.

Serendipitously, Australian Story screened an update of Peter's story on 29 October. You might like to watch it on iView.

ONENESS

Thanks to DSV Life Member, Mick Moran for his latest article. A different approach from what he's shared previously. And, as welcome as ever!

What is oneness? What does it mean to be one with the universe, one with your fellow man or woman, or one with creation?

Is there such a thing, and if there is, has anyone ever reached that point? Many people spend a lifetime searching for this oneness, often it's through meditation. And maybe they are fortunate to find this peace, this oneness with all. But unfortunately, many never seem to reach this level.

Things have happened over the years that make me believe there may be such a thing as being one with all things, and I may have had a small glimpse of what this may feel like.
