## **OUR NEXT MEETING HAS BEEN CANCELLED**

**Sunday 19 April 2020**

### **PRESIDENT'S REPORT**

You won't be surprised to hear that we've had to cancel our April meeting and our AGM. We hope we'll be able to meet in June and conduct our AGM then, but won't know that until later. Any updates will be covered in upcoming Newsletters and also posted on our website: [www.dsv.org.au](http://www.dsv.org.au)

Now, looking on a brighter side, this gives you a bit longer to give some thoughtful consideration about joining our DSV Committee!

Please do consider standing. After 20 years on the Committee and 11 of those in the President's role, I need someone to take over the position. The DSV needs new people and fresh ideas.

The role of President needs to be filled by a Committee member. Unfortunately, none of our existing office bearers want to take on my job, so for any change to happen we need new people onboard. I love dowsing, it's my passion. However, it's time for someone else to take over from me.

Please give this matter some serious thought. For the DSV to continue we need new Committee members and we need to be able to appoint new office holders.

Moving on from that ... in my February report, I covered the fact that so much of Australia was in deep crisis. We were battling with the shock and fall out of major droughts, bushfires and then came the floods. Fortunately, the fires are now out and many drought areas have received welcome rainfall. We are very grateful to so many who dowsed to help our country, including dowsers from overseas like Raymon Grace.

However, there are still many associated problems for people who lost their homes, farming stock and livelihoods. Tragically there's the continuing devastation related to enormous loss of wildlife and the massive clean-up operations that are still continuing.

It feels as though the timing of this coronavirus crisis couldn't have come at a worse time for our country. And of course, this is a global problem, affecting the world in many very serious ways.

I've been thinking further on this. So often I have shared about looking forward to the raising of consciousness and the need to break down old structures. We've never quite known how that would happen and sitting in the midst of the fall out about the coronavirus, it's clearly much harder than we ever expected.

Yet as dowers we are more empowered than we usually realise. The first thing is to deal with all your personal fear because fear itself reduces the immune system. You'll find an article by Heather Wilks on Page 6 with practical dowsing suggestions for helping yourself and others.

I was impressed by Australian healer Ken Graydon, who spoke at the International Dowsing Conference in Sydney last November. He echoes a lot of what Bruce Lipton and Joe Dispenza suggest. In a nutshell, we need to change our mindsets to become more positive, in order to be well.

In closing here, I wish you greater peace of mind, more happiness, hope, trust and complete wellness in these unusual times. Let's join together to believe that out of the chaos will come something truly wonderful.

**Lyn Wood, *President***

**THE NEXT DSV MEETING IS CANCELLED**

**OUR LAST MEETING**

Benjamin Turale was our guest speaker to kick off our DSV year in February.

*Benjamin Turale at the DSV*

Benjamin's interests lie in the intersection between alchemy, ceremonial magic and astrology. He created an entirely new presentation for the DSV titled, 'Synchronicity, Alchemy and Magick'. His presentation was very well received.

Benjamin explored universal principles that govern the connections between the mind, body and the effect that consciousness has on our reality.

For more details about Benjamin Turale:

### CONGRATULATIONS TO MONICA SUBAI

The DSV was so happy to award Committee member, Monica Subai, with a DSV Life Membership at our February meeting. She was so happy and surprised.

Monica is an enthusiastic member of our team. She took on the role of Secretary some years ago and then stepped up to assist when our Treasurer, Malcolm Davies, was out of action with serious back problems last year.

*Monica Subai receiving her award from Lyn Wood*

### SHUNGITE

*Thanks to our DSV Committee member, Bev Ellison, for this welcome contribution.*

Shungite is a natural black stone of an unusual composition and structure. An ancient rock that is about 2 billion years old.

Shungite comes from the Russian region of Karelia. It is widely available and inexpensive and has been incorporated into industrial uses. Not all shungite is created equal. It comes in different grades or classes, based on its carbon content. The more carbon it has, the stronger its healing qualities.

## DOWSING ON FEAR, DOWSING ON THE CORONAVIRUS

*By Heather Wilks, DSV Vice-President and Newsletter Editor*

In March I listened to Raymon Grace being interviewed by Roxanne Louise, president of the American Society of Dowsers (ASD).

*International dowser, Raymon Grace*

When asked about how to overcome the coronavirus, in his usual humorous way he said he hasn't yet worked out how to heal the world, so suggested we each work on ourselves and our families. There'll be a rollout effect. He said the first thing to do is to neutralise the fear and transform it to something positive like courage, or happiness, or prosperity – or just pure water.

Raymon also suggested we dowse to increase our life force and boost our immune system. He said that given everything has a spirit, we can banish the spirit of the virus and deactivate its life force. He suggested we could program our water with a frequency to boost our immune system for ongoing protection.

*Meanwhile, you can access my dowsing protocols for the coronavirus from a link on the Remote Dowsing page of my website [www.dowsingheals.com](http://www.dowsingheals.com) (Editor)*

## ARE YOU OUR NEXT DSV NEWSLETTER EDITOR?

We are still actively seeking a new Editor to take over my role for the DSV Newsletter.

I urge you to please contribute some articles to be included.

I invite you to write something yourself for the DSV Newsletter. You can remain anonymous if you prefer. Please email it to me : [heather@ohnaturale.com](mailto:heather@ohnaturale.com) (Ed.)

## DSV RECORDINGS NOW ON DVD

We have many earlier speakers available on CD.

From 2016 we have provided DVDs instead:

These will be available again for purchase at meetings and by post, when we're able to access the facilities at our venue Monash Halls. Thanks for your patience.

## NEWSLETTERS BY EMAIL

Receiving our Newsletters by email saves not only the trees, it also saves the pressure of finding a print outlet to be able to print in this time of crisis. Overall, emailed Newsletters save DSV volunteers the extra work, plus the costs involved to print and post (when that option is even available).

**You'll usually receive a valuable covering email with the very latest in links, sometimes including things not in the printed Newsletter.**

To request the changeover, simply email [heather@ohnaturale.com](mailto:heather@ohnaturale.com)

## THE DSV SHOP

When we're able to hold meetings again, rest assured we're well stocked with many dowsing books and dowsing instruments, including Mick Moran's hand-made rods and, for the first time, Raymon Grace's bobbars.

**This is an Extract of the DSV April 2020 Newsletter. By becoming a DSV member you'll receive six full copes each year.**

**You can download a Membership form on the Home Page of this site.**

**Please write the DSV Meeting Dates in your diary today:**

**2020** – Hopefully: 21 June (Dates TBA for 2020 August, October & November)
