PRESIDENT'S REPORT

Thank you to everyone who attended the AGM at the last meeting. The Committee was returned without any changes and Heather Wilks was awarded a Certificate of Life Membership.

After the meeting, Heather was approached by two members who chose not to stand for the Committee. They have offered to assist with the newsletter, with a view to taking it over down the track. I'm sure they will work well together and sharing the load is a great thing.

As members of the Committee, we have a happy time working together. Obviously none of us can stay on the Committee forever. So, I urge you to think about becoming more involved in the DSV. It might be as simple as occasionally offering new suggestions. Perhaps you could write an article for the newsletter. Or you might decide to help by distributing our newsletters or brochures in places where new people learn about our activities. This involvement may lead to you eventually wanting to stand for a position on the Committee. I feel that it can be so beneficial to have assistants working with us, learning the ropes long before the time comes to change the personnel for various positions.

At our last meeting we used a different seating format. Tony Hill has the sound system working brilliantly, and now we want to make sure that the viewing is comfortable. We welcome your comments about the change in the seating set up. Was it better for you?

Some of our members have chosen to develop informal liaisons within the DSV, meeting to discuss shared interests away from

our public meetings, which is great and we look forward to hearing as things unfold.

Our next speaker is Committee member Carolyn Koludrovic. If you are interested in dowsing for health, I'm sure you'll enjoy Carolyn's presentation on Auras on 19th June. Why not bring a friend or two along?

Lyn Wood, *President*

OUR LAST MEETING

Lyn McLean was warmly welcomed at our last meeting, the AGM. She spoke about her topic of choice, electromagnetic radiation (EMR). Lyn's new book, "The Force" sold like hot cakes on the day.

(If you missed the meeting or the chance to purchase a copy, we still have a few of Lyn's book available for sale at the next meeting. Ed.)

GHOST BUSTERS!

By Lolita Gunning, DSV Member

My daughter and her family bought a lovely home in suburban Melbourne last year. They couldn't believe their luck at how, on the day of the auction, only one other couple turned up and that they didn't even put in a bid. So my daughter and her husband bought it at a very, very good price! No one imagined the problems

they would encounter - nor the way that they could be resolved by using remote dowsing.

BALANCING EMFs THAT RADIATE FROM APPLIANCES

By Joey Korn

This article is being reprinted by popular request. It provides helpful advice about using dowsing to protect our families and ourselves from harmful energy. It is a timely reminder following Lyn McLean's fascinating presentation at the last DSV meeting. Ed.

If you have ever heard of EMFs, the electromagnetic fields that radiate from devices such as cell phones, televisions, and digital clocks, you've probably heard that they're harmful and can even cause cancer. I agree that most of these devices do radiate energy fields that are detrimental to us, but, believe it or not, you can learn to make EMFs beneficial and you can even use these energy fields to improve your life. *I love EMFs!*

STOCKING UP THE DSV SHOP

We are pleased to announce that the DSV shop has just stocked up with the biggest range of items we've ever offered.

We've managed to access a broader range of different dowsing rods and pendulums. Although we don't promote the need for expensive tools, we realise that some members appreciate having more styles to choose from and our new lines expand our range significantly.

In addition to the new dowsing tools, we also are well stocked with a greater range of dowsing books for purchase. We have the new books by our recent presenters, plus a selection acquired from the British Dowers.

As well, we've just re-stocked many popular items from Raymon Grace in America, including his wonderful books: "Techniques That Work For Me", "The Future Is Yours", and "Seasons of April". Plus, for the first time we are offering another DVD from Raymon, "Learn to Dowse".
