## **PRESIDENT'S REPORT**

How quickly another year has flown by. I hope you've been enjoying the speakers again in 2011. It's our Committee's collective passion for dowsing that keeps us going!

What is your passion? Do you have more than one? What do you think is your soul's purpose this time around? These are interesting questions to ask ourselves – and using our pendulums (or rods) can help us to find our truth.

Perhaps you already know the answers without dowsing. If so you are among the lucky ones who don't need tools. However, the more we use our dowsing tools, the more likely it is that we won't need them in the longer term as our skills for listening to our intuition develops.

Have you ever had a sudden urge to ring someone, or to do something or even go somewhere unexpectedly? Are you inclined to act immediately on your hunches, or do you put it off?

Have you ever rung someone on a sudden impulse only to find that the person had been just about to ring you, or was thinking of you?

Whenever possible I try to take notice when my intuition is prompting me. It takes a bit of practice but it can be rewarding to act at once, rather than putting it off until later.

At our October meeting we started a new opening for meetings with some group pendulum work. This was well received so we've decided to keep the practice going for future meetings.

As this is our last newsletter for the year, I'd like to thank you all for your attendance and wish

you a very happy Christmas and a 2012 filled with renewed energy, happiness, health and abundance. I hope to see you all at our last 2011 meeting on 27<sup>th</sup> November.

### THE HAUNTING AT NO 140 Part 2

*A welcome article by DSV Member Mick Moran*

Looking through the TV guide for Wednesday 29<sup>th</sup> December 2010, it looked like it was going to be another early night. There was little of interest worth watching. It seemed the TV moguls had decided to rerun the worst of the year's programs over the Christmas New Year period. Nothing unusual in this, but I didn't have to watch them. I was getting ready for another episode of "Star Trek Next Generation" before bed instead. Yes, I'm a trekkie fan, and have been since the original Star Trek episodes hit the TV screens way back when I was much younger than I am today.

After watching another exciting episode of Star Trek, by 10:30 it was time to sleep. It only seemed like seconds later when I woke with a start. I had a strange feeling in my body. I felt sick in my stomach and I had a tightness in my chest. I recognised the feelings and knew I wasn't having a heart attack. I get these sensations I when I'm in the presence of strong energies. The same thing had happened on 20<sup>th</sup> and 21<sup>st</sup> December when I'd encountered an entity in the house.

### THE DSV SHOP

The DSV shop is now well stocked with the biggest range of items we've ever offered.

We have a broad range of different dowsing rods and pendulums. While we don't promote the need for expensive tools, we realise that some members appreciate having more variety to choose from.

In addition to the extra dowsing tools, we are also well stocked with a larger range of dowsing books for purchase. We have the new books by some of our 2011 presenters, plus a selection from the British Dowsters. And we've re-stocked many popular books and DVDs from Raymon Grace in America.
