PRESIDENT'S REPORT

Welcome to 2013! We are apparently entering a new 5125 year cycle in time, the beginning of a new age in history. It's being viewed as the time to do things differently from what we've been used to doing to get better results.

In January my husband Phil and I attended a seminar by Gregg Braden and Bruce Lipton. Internationally-renowned Deepak Chopra describes Gregg as "a rare blend of scientist, visionary, and scholar with the ability to speak to our minds while touching the wisdom of our hearts". Bruce is "a pioneer in the new biology, a recognized leader in bridging science and spirit". They present their information in a friendly, lively and interesting way.

So I urge you to look at their websites, purchase or borrow their books or DVDs and learn how it is possible for us all to contribute to our magnificent future. In his book "Deep Truth" Gregg tells us that "the best science of our time, when it is married to the wisdom of our past, confirms that we still have the ways and means to shift our time of crisis into a time of emergence. We can create a new world based upon actionable and sustainable principles rooted in the core understanding of our deepest truths".

One thing that some of us are doing to improve the present and the future, is dowsing in connection with the extreme weather conditions. Media reports were telling us this was going to lead to a crisis. DSV Committee Member, Heather Wilks, formed the sensitive wording and emailed to a small group, later increasing the group. We believe that although the weather was still hot, it wasn't as windy or dangerous as it might have

been. This is one of the things we can do to make our world a better place. (For the report please go to Page 4.)

Meanwhile we're pleased to welcome Noel Jordan from the Australian Dowsters to speak to us at our February meeting.

DOWSING JOURNEYS

Developed from an interview by DSV Member, Bernadette Hogan, as part of an ongoing segment.

Malcolm Davies - I was first introduced to dowsing about 20 to 25 years ago when a medical practitioner, who combined both conventional and alternative therapies showed my mother how to dowse for foods.

About four and a half years ago I met my wife Judy and her naturopath sister. They explained dowsing in more detail and my interest was reignited when I saw Judy dowsing to help with her health decisions.

Formulating the right questions is important. It's not rocket science. When in doubt, read Raymon's Grace's materials. He has a logical, down-to-earth attitude and presents his knowledge so that it's easily understood.

DOWSING FOR THE HOT WEATHER

By Heather Wilks, Newsletter Editor

In January when Victoria's extreme heat was being hyped so widely I emailed some from the email list with suggested dowsing protocols. The winds dropped and conditions improved over the days that followed which hel

This is a work in progress and it seems that dowsing in the lead up to the very hot days forecast may work even better than just the day before or at the last minute on the actual day. Lolita Gunning's article that follows seems to clarify what I have wondered!

IT'S CRYSTAL CLEAR

Item in *The Age* newspaper on 29 Nov 2012.

Diners in restaurants and cafes usually use their gut instinct when ordering, consult a waiter or peruse the daily specials. Restaurateur Matteo Pignatelli, owner of Matteo's in North Fitzroy, was spellbound when a customer used a crystal. That's right, a crystal pendulum was dangled over the menu to help the woman determine what food was right for her body that is a temple. The woman received a "yes" to order zucchini flowers then chicken and leek pie, which proves not only soy-loving, leftie vegetarians turn to their crystal guru. Impressed at the new-age ordering process, Pignatelli said: "I need to get myself a crystal."

WORKING WITH NATURE

Thanks to DSV Committee Member Lolita Gunning for this contribution.

Recently I came across a website with a talk on World Puja by Suzanna Kennedy, called 'Experiments With Rainmaking'.

Suzanna talks about how all the indigenous cultures have long communicated with the Elements and Mother Nature.

Suzanna suggests that we "Free the Nature Spirits so that they can help restore Balance in a natural way." We are meant to co-create, communicate, honour and understand that there is consciousness in everything.

Suzanna suggests giving Nature "plenty of time, to allow things to happen in the most graceful way possible. It may take a few days to see a result that's fo
