DSV philosophy: Through awakening consciousness, we are empowered with knowledge and skills to unconditionally serve others.

**NEXT MEETING
Sunday 15 February 2015**

PRESIDENT'S REPORT

I trust you had a very happy Christmas, a thoroughly relaxing break and that you are ready for a wonderful new year.

Due to our summer weather being surprisingly cooler than predicted so far, I think many of you may have joined me in using the weather protocol which Heather Wilks developed from Raymon Grace's methods. There's a new one in this Newsletter which relates more directly to drought and bush fire conditions.

If you're looking for some tuition about dowsing, I will be running workshops during the year, as will Heather. Please contact either of us for more details.

The DSV is always seeking to line up speakers with something of special interest to share with everyone during the year.

Please let us know too if there is a topic related to dowsing that you'd like us to explore more. We'll do our best to do that.

I am very pleased that at our first meeting for 2015 we will be screening some DVD material from Amanda Gore. Amanda is a remarkable Australian who is very popular on the international speaking circuit. She skilfully uses humour to educate and motivate people to bring more joy into their lives. I'm sure you'll get a lot out of her what she shares. It's a fabulous way to launch into 2015.

As always there will be some group dowsing and we'll open up the floor for questions about it. It's always great to see how enthusiastically people share about their experiences and it's often

a great motivator in itself to encourage others to explore different dowsing approaches.

A gentle reminder, the Annual Membership Fees are due at the 15 February meeting. You're welcome to bring friends along for some happy sharing between like-minded people.

Lyn Wood, *President*

NEXT MEETING

Time & Date:

**2.00 pm, Sunday 15 February 2015
(1.30 pm for dowsing practice)**

Place:

**Mount Waverley Community Centre,
Miller Crescent, Mount Waverley**

**(Opposite Mount Waverley Railway Station)
Melways: 70 E 1**

**Parking at rear, off Holskamp St. which runs off
Stephensons Road**

OUR NEXT MEETING

For our next meeting on Sunday 15 February, the highlight will be some wonderful DVD video extracts of Amanda Gore, the Australian who has become a globally recognised speaker.

Amanda Gore

Amanda has an amazing zest for life and an extraordinary level of energy, enthusiasm, humour and intelligence to share. The DSV felt it would be wonderful to kick-start 2015 with some unbridled passion for us all.

Of course, we'll also have the usual dowsing introduction to our meeting and there'll be opportunities for asking your dowsing questions. We'll open it up for everyone to have the chance to respond to those questions as it allows for many different experiences and points of view to be shared at the meeting.

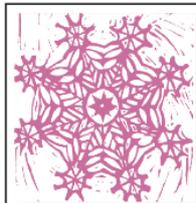

Amanda Gore: www.thejoyproject.com

OUR LAST MEETING

DSV member Mari Metcalfe was the guest speaker for our last meeting of 2014 in November.

Mari spends half the year here in Melbourne Australia and the other half in Dorchester on Thames, 8 miles (13 km) from Oxford in Britain. So as well as belonging to the DSV, she is a member of the Wyvern Dowsing Society, which is affiliated with the British Society of Dowsters.

The discovery of the remains of a Roman road and a Roman wall on her UK property happily confirmed Mari's own hunches. Don Bryan, the Director of Archaeology in the British Dowsters, led a dowsing field trip to her home and confirmed the find. She said it was such a valuable dowsing experience for all concerned.

"DOWSING HEALS" EBOOK

By Lyn Wood, DSV President

I commend to you the new eBook, "Dowsing Heals", written by our own DSV Committee member, Heather Wilks.

I've found it to be very easy to read, good for beginners as well as those wanting to expand on their dowsing skills.

Heather's eBook covers dowsing in a lot of detail. She includes a tool to help overcome doubts, worries and fears about dowsing. She addresses Yes/No dowsing and also advanced dowsing. I really like the way she has set out so many protocols to suit changing different energies.

American Dowser, Raymon Grace has endorsed her eBook. They've developed a good relationship via email since Heather's been on the DSV Committee. This is part of what was posted in the "Raymon Grace Dowsing & Self Empowerment" Group on Facebook:

Heather has a lot of success with dowsing and has written an E-Book about it, sharing stories of how we worked together. She is an excellent inspiration of what can be done and you might want to read the book and follow her examples. You can contact her at heather@ohnaturale.com Raymon

I asked Heather for details of other comments she'd received since she launched her eBook and she's passed these on.

"Thank you so much for writing your dowsing book. So much wonderful information at my fingertips. It was a timely reminder of all the things you taught in your course. The way you use dowsing with Inna Segal's work is a whole new horizon for me to work with." AS (Australia)

"I have been a Dowser for close to 40 years, read many books on the subject, am a follower of Raymon Grace, and have taught several dowsing classes. Your easy to read and understand book brought me many new ideas and new twists on old concepts. In short, it is excellent!" RS (USA)

"Congratulations on a great book. I'm very confident that someone who knows nothing about dowsing will be able to dowse by the time they have finished reading it. I can see you've put your heart and soul into it. MM (Australia)

"I spent all Christmas Day reading your book. I was just asking the universe the other day for a way to help in a larger way, then there was your book. What wonderful potential to help and heal. Mankind needs a little boost of goodness, this may be just a nice part. It's time for this book so good on ya for doing it. I hope I can make a difference one day like you have." RS (Canada)

Great book. Great info!! It's really good detailed info for me to use, just what I needed. I am going to read it fully and translate the dowsing protocols in Dutch. HZ (Netherlands)

If you'd like to arrange a copy of Heather's eBook please email her for details: heather@ohnaturale.com or phone her (03) 9572 2970. (She can arrange a printed copy if you'd prefer that to a PDF on your computer.)

DOWSING FOR DROUGHT & BUSH FIRES

By Heather Wilks, DSV Editor

Dowsing for weather conditions has been a work in progress over some years.

Dowsing Protocol

Start swinging pendulum in NO direction and then let it pick up its own momentum.

Scrambling the frequency of the drought and bushfires in Victoria, NSW, the ACT, Queensland, South Australia, Northern Territory, Western Australia and Tasmania. Neutralising all the negative energy, non-beneficial thought forms and the media-fed hysteria relating to the extreme conditions, everything known or unknown that is contributing to the droughts and bushfires across the country, raising fear levels, contributing to devastation and possibly encouraging arsonist activity. Magnifying this dowsing with the help of spiritual dowsers and the skills of the best dowsers on the planet.

*(Wait until pendulum stops spinning.)
Now start swinging pendulum in YES direction and then let it pick up its own momentum.*

Transforming the energy to bring increased balance, harmony and peace for calmer, more beneficial conditions for the people, animals, properties and land affected by drought and prone to bushfires - in Victoria, NSW, the ACT, Queensland, South Australia, Western Australia, Northern Territory and Tasmania. Bringing in the most appropriate temperatures and humidity levels, gentle breezes and normal rainfall in safe, beneficial amounts. Bringing in the spirits of love and gratitude, respect and freedom, for the highest good of all. This or something better as safe and appropriate from now and into the future across all time, dimensions, space and reality. Thank you.

AN ENERGY TRANSPOSING UNIT

By John Richardson. Reprinted with the kind permission of the Dowsers Society of NSW Inc.

I have written about installing one of these units in many of my exploits with energy.

It can be installed remotely or on-site, whilst in your Dowsing Mode. Think of it as a type of car wash, it runs on energy instead of water, and will transpose any non-beneficial energies into beneficial energies, on any designated area of land, including any water or buildings on that property.

It will cover any defined area and will extend beyond the property's boundary line by about 40 centimetres. This overlap is necessary to protect the subject area but does not interfere with the property next-door.

Note: This is an extract of the DSV February Newsletter. Join the DSV and you'll receive the entire Newsletter 6 times annually.

Please write the DSV Meeting Dates in your diary today:
2015 dates – Sunday 15 February, 19 April, 21 June, 23 August, 18 October, 29 November
