DSV philosophy: Through awakening consciousness, we are empowered with knowledge and skills to unconditionally serve others.

**NEXT MEETING
Sunday 17 April 2016**

PRESIDENT'S REPORT

After autumn began I was pleasantly surprised to realise that summer wasn't quite as hot and dire as the media had predicted. However, we extend our sympathies to all involved. I am just thankful that it hasn't been as widespread and catastrophic across the whole of Australia as the media grimly predicted late last year.

I like to think that in some way that conditions may have been helped as a result of so many people actively dowsing to bring more balance for the weather, and also talking to the Nature Spirits as taught to us by Raymon Grace and encouraged by our Vice-President, Heather Wilks. In her book, "Dowsing Heals", Heather explains her protocol for dowsing the weather.

Lately I've been busy doing lots of map dowsing as well as onsite dowsing for geopathic stress. The way I work is to look up the address on Google. If a property is for sale, I follow the link to the estate agent and investigate the details, including plans of the block and/or house. I then "walk" through the house with my finger as if I was there, dowsing for underground streams, Hartmann and Curry Grids, Lost Souls and more.

I will be teaching my methods for this and onsite dowsing when I run my Advanced Dowsing Workshop in Beaconsfield on Saturday 30 April. If you would like to know more, please talk to me at the meeting or contact me by phone or email.

I was recently contacted by a dowser from England who would like to meet with us whilst visiting Victoria in April. I will let Richard Summers introduce himself:

"I am the founder of Essential St Edmunds which promotes and teaches dowsing and meditation in the magical medieval borough of Bury St Edmunds in Suffolk, England, where the Michael and Mary earth energy lines "kiss" in the site of the old Benedictine Abbey (see "The Sun and The Serpent" by Hamish Miller and Paul Broadhurst). By the way, or not, I traced the Apollo and Athena Lines as a pilgrimage through France and Italy by motorcycle after attending the launch event of "The Dance of the Dragon" at St Michael's Mount in Cornwall)."

Richard plans to visit Ayers Rock in May and dowse his way around it, investigating the possibility of Michael and Mary lines there. If anyone wishes to join Richard's dowsing adventure, I can give you his email address. I am meeting him on Friday afternoon 22 April in Richmond. If you wish to join us please get in contact with me.

Meanwhile, I look forward to seeing you at our next DSV meeting on 17 April. It's our Annual General Meeting where all the Committee members will stand down ahead of voting. If you think you can help us to run the Society, don't hesitate to ask one of us to nominate you, or you can nominate yourself.

Lyn Wood, *President*

NEXT MEETING

Time & Date:

1.45 pm for 2.00 pm start, Sunday 17 April 2016

Place:

**Mount Waverley Community Centre,
Miller Crescent, Mount Waverley**

(Opposite Mount Waverley Railway Station)

Melways: 70 E 1

Parking at rear, off Holskamp St. which runs off
Stephensons Road

OUR NEXT MEETING

We keep the formalities short at our AGM so that we can move on to the day's presentation. To be eligible to vote or nominate for the DSV Committee you need to be a paid-up member. Please consider standing for a position yourself. New ideas and new energy are always welcomed by us all at the DSV. We're a friendly bunch and this is a great opportunity to find out more about us all.

For our next meeting on Sunday 17 February we are delighted to welcome DSV Committee Member Lolita Gunning and DSV Member Erika L. Soul to make a joint presentation: *"Entering Our Heartspace"*.

Erika and Lolita will discuss the Heart, Brain and Body connection. The 'true' heart (not necessarily 'emotions') has been found to have its own intelligence and has even been found to be more powerful than the Brain.

How can we connect with our heart?

Experiments at the HeartMath Institute have shown that the heart seems to know the images flashed randomly on a screen, before the participants saw them with their eyes. They found that 'the heart seems to be connected to a type of intuition that is not bound by the limits of time and space.'

As we release blockages in the heart more love, joy and happiness can flow through our heart to ourselves and to others.

Erika will show how to combine dowsing with Dr Bradley Nelson's 'Emotion Code' chart, to dowse and release trapped emotions around the heart, in the heart wall. Once such emotions are released, we are free to fully give and receive love more readily. We're able to listen to the wisdom of

the heart - something that we can truly trust. Erika will provide you with the link to access Dr Nelson's Emotion Code book so that you can read up on all the fascinating details for yourself.

Erika will also be talking about Orbs of Light that are around us, explaining what they are, and the many ways they can help us to heal our hearts and minds – trusting that simply being open to the Divine energies can bless us and enrich our lives.

In addition to speaking about the Emotion Code, our presenters will do some dowsing on negative emotions, as taught by Raymon Grace.

They will also touch on other forms of healing including Lester Levensen's work (now represented in the Release Technique & the Sedona Method), and Robert Smith's FasterEFT (emotionally focused transformation) tapping.

This promises to be another informative talk and we encourage you to come along with a friend or two.

OUR LAST MEETING

For our first DSV meeting of the year in February Malcolm Davies and his wife Judy Boyd held us enthralled with details about the adventures that "Peaches" their cockatiel has led them on. Ongoing dowsing experiences.

In their presentation, *"Moving On, helping Human Spirits to Go Home"*, they explained how their observations of their bird led to some serious curiosity.

They discovered that some lost spirits were "stuck" and staying on in their home. Using regular Yes/No dowsing they asked in depth questions and made some interesting discoveries. They were able to take the spirits home to the Light. However the numbers appearing started escalating.

From November 2015 until the time of their presentation they've recorded taking an astonishing number of about 350 lost souls to

the Light. Often there had been major traumas involved, deaths in very uncomfortable circumstances, including warfare and bushfires. Only about a dozen appeared to have died naturally.

REMOTE CLEARING OF GEOPATHIC OF STRESS ZONES

By Joey Korn <http://www.dowsers.com/page49.html>

There are energies in the Earth that can cause problems in our lives. Many dowsers believe these Geopathic lines or Geopathic Stress Zones can cause illness.

Yes, this can be, but I believe we affect the energies as much or more than they affect us. We actually cause the Earth energies to be detrimental with our illness and with our negative thoughts, actions, and emotions. The energies in our homes are constantly reflecting us back to us.

We are energy beings living in a universe of energy, or Light. We change the subtle energies (Light) around and within us with every thought, action, and emotion. With negative thoughts and emotions, we imprint detrimental energies in our living environment that may stay around affecting us for years to come. With positive thoughts and emotions, we imprint beneficial energies that strengthen and support us.

There are Earth energies that affect us in beneficial and detrimental ways, causing geopathic stress. The energy fields of underground streams can be detrimental to us.

There are other Earth energies related to your home and property that can cause geopathic stress. Hartmann and Curry Grid Lines create a grid across the globe and these energies are in every one of our homes, but they are not necessarily detrimental.

There are also detrimental electromagnetic fields (EMFs) that radiate from electronic appliances and devices.

The good part about all of this is that any detrimental subtle energy field can be changed into a beneficial energy field. As we go through

life, we actually surround and fill ourselves with what we think, feel, and do.

We're unconsciously imprinting the energies of our fears, our frustrations, our anger, and even our illness in our living environments. They are imprinted in unique energy frequencies that are defined by the thoughts, emotions, etc. Then as we enter these energies in our day-to-day lives, they are constantly reminding us of the thoughts and emotions that put them there in the first place.

Of course the same thing happens with positive, joy-filled thoughts actions and emotions. We're actually leaving a cosmic trail as we go through life, part of our karmic pattern. You might think of fear and anxiety as the opposite of prayer and blessing. It certainly has an opposite effect on the subtle energies within and around us. And if you live in a house that was lived in by others, you may be inheriting their energies and, if so, they are affecting you! The more you understand about what is going on energetically, behind the scenes in life, the more you can take charge of the process.

DSV RECORDINGS ON CD

We have many speakers available on CD:

The CDs from our various presentations are available at meetings for \$5 each. They are a great idea to give as a gift, or to purchase for yourself if you missed a speaker you particularly wanted to hear.

THE DSV SHOP

The DSV shop is well stocked with a broad range of different instruments. We have many different types of dowsing rods, wands, pendulums and wizzes to choose from.

You can also choose from a wide selection of books, DVDs, and CDs from all over the world. And we offer a range of reference materials, including information sheets, charts, older DSV Newsletters and items of interest to dowsers.

Please note: This is an Extract of the DSV April 2016 Newsletter. By becoming a DSV Member you will receive 6 full copies a year. You can join us via [this site](#).

Please write the DSV Meeting Dates in your diary today:
2016 dates – Sunday 17 April, 19 June (August, October, November TBA)
