Next meeting Sunday 26 May 2024

PRESIDENT'S REPORT

Next year, 2025, marks 50 years since our DSV founder, George Williams, started having meetings at his home in the Melbourne suburb of Nunawading with other dowsers.

At our next meeting on 26 May we will hold this year's AGM. Due to one or two Committee members not re-standing. We really need your help to keep running this group. So, if you are passionate about dowsing and informing people about it, please put your hand up to stand for the Committee.

People need to know there is more to dowsing. Yet, if we don't get more help, the DSV may have to fold. That would leave NSW as the only dowsers group remaining in Australia.

I was pleased to be able to attend the March meeting. I was warmly welcomed back. Everyone there enjoyed, and benefitted from the frequencies received from Nicholas Alexander's Sound Therapy.

I hope to see you on 26 May when we will hear from Eve Dembowski who will define Traditional and Modern Astrology.

Lyn Wood, *President*

SPECIAL THANKS TO THE DSV

As Lyn Wood indicated in her Report above, a couple of DSV Committee members have decided not to re-stand for election at the May 2024 AGM.

I am one of them. Having been on the Committee for over 20 years and had the responsibility for the DSV Newsletter for 17 years, I feel the time has come to make way for a few others to take over my various roles. (I will of course remain a DSV Life Member.)

It's been a lot of fun. I've learned so much and have met and worked alongside some wonderful people in my time involved. I've made some very special friends too. Most notably Mary and Fred Ward. Fred taught me how to dowse in 2001 and in

2004 they “introduced” me to the amazing Raymon Grace via a VHS recording at their Mount Waverley home.

I am so grateful for all the fabulous dowsing adventures that continue to unfold and for the new dowsers I meet, in Australia and via email and Zoom meetings to other countries.

Best wishes, Heather. *Heather Wilks DSV Vice-President*

OUR NEXT MEETING

We aim to keep the formalities short at our AGM which is to be held on Sunday 26 May. We're all keen to move onto the day's main feature. To be eligible to vote or nominate for the DSV Committee, you need to be a paid-up member. We invite you to consider standing for a position yourself. New ideas and new energy are always welcome at the DSV. It has now become essential for our future that we have new people joining the Committee. It will allow those who need to step aside from the DSV Committee to do so without undue strain and stress.

Please arrive at 1.30 pm. It will allow us to start at 2.00 pm sharp.

Our presenter for the next DSV meeting on 26 May 2024 is Eve Dembowski who will speak about “The difference between Modern and Traditional Astrology”

Eve's view is that the current state of the world mirrors our modern obsession with matter and individuality. For over 2000 years Astrology was not so focused on the individual and their process, but rather on human being's relationship to the Devine, as reflected in the Cosmos. She wonders whether it's now time to reclaim the wisdom of the past and redefine Astrology in accordance with its lineage.

To contact Eve Dembowski in Mebourne, Australia, call 0401 847 412.

OUR LAST MEETING

Our presenter for the last DSV meeting on 24 March 2024 was Nicholas Alexander (also known as Nicholas White Wolf).

Nicholas was a huge success. Everyone loved his presentation on Sound Healing. He used a range of Organic instruments tuned for the Chromatic scale to promote regeneration of the Chakra centres.

In his demonstration, Nicholas demonstrated Yidaki Didgeridoo, Himalayan Singing bowl and Gong instruments, and he gave an introduction on the benefits of using these for meditation and clearing/cleansing energy. Nicholas can be contacted via email: nicholas.mif@gmail.com

ARE YOU THE NEXT DSV NEWSLETTER EDITOR?

This will be my last DSV Newsletter. After 17 years, the time has come for me, Heather Wilks, to pass it to a new Editor.

This is your chance to put your creativity into it and give everyone a real treat.

I am grateful to those who have contributed dowsing stories and especially to DSV Committee Member Bev Ellison who has helped so much by sourcing articles. Also to François Capmeil, Editor the NSW Dowsers Newsletter, for his support with allowing me to reprint articles from his Newsletter.

DOWSING TO BREAK DROUGHT

By Heather Wilks

For several years I've been in email contact with Anna Guerrier, a former Newsletter Editor for the British Dowsers. She now lives in Portugal and over time we've shared dowsing stories and ideas, particularly related to the drought in her region.

As I'm directly involved with the weekly Tucson (Arizona) Weather Dowsing call, Portugal was a regular on the list of places needing weather help.

Then the great day of Anna's email arrived. After years of such extreme drought she reported they'd had beautiful rain. (However we've kept southern Portugal on the Tucson list because there was no respite and summer was due.)

ENHANCING THE BIOFIELD, COUNTERACTING 5G

By Jayme Westrom

After 10 years as a Montessori teacher, I became curious about the many environmental factors that were hindering my students. They were presenting with chronic conditions that have become all too common in just the past two decades.

I realised that most of what I do employs dowsing. I use different terminology, but it's essentially the same principle.

NOTE: This is an Extract of the 26 May 2024 Newsletter. By joining the DSV via this site, you'll receive six full copies a year. Details on our DSV Home Page.
