## **PRESIDENT'S REPORT**

It was good to finally hold our Annual General Meeting (AGM) to start our April meeting. We weren't able to do it during the 2020 lockdowns and not quite ready to tackle it via Zoom.

We are very pleased to welcome two Members to the DSV Committee. Mick Moran is a DSV Life Member who lives in rural Victoria and attending our Committee meetings when we held them at 11 am wasn't an option with train travel on meeting days. Now that those meetings are via Zoom, he decided to come on board, which is great. Olive Lane has also been a DSV Member for many years and it's wonderful to have her now officially on the Committee. Welcome to both!!

At the June meeting we awarded Bev Ellison Life Membership. Ever since joining the Committee Bev has pitched in to help. And, she's been particularly conscientious in providing regular articles to assist Heather Wilks with the Newsletter. Congratulations to Bev on her award!

I'd like to take this opportunity to thank our Treasurer Malcolm Davies for his foresight some years ago in making some hard decisions. At a memorable DSV AGM he explained the real costs of running our Society and why our fees had to be increased. There was a mixed reception, but his suggestions were approved, thankfully. As a result, the DSV has so far been able to ride-out this pandemic and remain financially viable. That's happened due to his diligence.

Any time you feel or dowse that there is non-beneficial energy in the earth somewhere you can use your pendulum to check whether it is right for you to heal or change it. If so, scramble the non-beneficial energy as Raymon Grace has taught us to do, then replace it with happy, healthy energy.

We can be discerning and think for ourselves, trusting our intuition. The frequency of the Earth is rising so we need to increase our own frequencies too, in order to live in more harmony with the Earth.

I hope you can attend our next meeting on Sunday, 20 June when we will have an opportunity for practical dowsing, maybe learning new skills.

**Lyn Wood, *President***

## NEXT MEETING

### Time & Date:

1.30 pm for 2.00 start, Sunday 20 June 2021

### Place:

Mount Waverley Community Centre,  
Miller Crescent, Mount Waverley

*(Opposite Mount Waverley Railway Station) Melways: 70 E 1*

**Parking at rear, off Holskamp St. which runs off Stephenson's Road**

## OUR NEXT MEETING

For our next meeting on 20 June, we're pleased to announce a return to a format that's become a favourite with DSV Members and visitors alike over time.

We'll have various Dowsing Tables manned by a number of dowzers sharing their knowledge. Experienced dowzers will share useful insights on different dowsing topics. The idea is to stop by and pick up some great tips from one table before moving on to another, where someone else is demonstrating a different aspect of dowsing. You'll be able to find out more about map dowsing, changing energy and a number of ways to check your own dowsing skills.

It's always lots of fun and of course there are new things to discover about dowsing.

This promises to be a good meeting for you to bring along some friends who are perhaps new to dowsing and would like to get a great overview of what's possible.

## OUR LAST MEETING

At the AGM held ahead of our general meeting on Sunday 18 April, we were pleased to welcome two new DSV Committee Members, Olive Lane and Mick Moran. Welcome aboard!

And, we were delighted to surprise Committee Member Bev Ellison with a Life Membership to the DSV. Our congratulations to you Bev!

After the AGM formalities, at the April meeting it was good to be able to show a longer video from Raymon Grace. It was new to everyone – his presentation to the Lone Star Dowzers in the US from February 2021.

## LIFE LESS ORDINARY

Thanks to Anna Guerrier for her welcome contribution. Anna is a professional member of the BSD and runs a successful healing practice in Portugal.

Sometimes the word Ordinary gets a bad rap but what exactly is Ordinary?

It can be a good thing – “Oh! He’s great, a real ordinary guy, you can rely on him.”

Or not so good – “you don’t want to buy that dress it’s just a bit ordinary.” Very damning!

So what is life – Less Ordinary?

It has many guises such as stepping out of the box; refusing to conform; adventure; travel; spreading your wings, all of these could be classified as less ordinary. But could it also be seeing the less ordinary in what appear to be ordinary situations.

Could ordinary actually be the smoke screen hiding our addiction to expectation? Both our own and other people’s?

Interestingly, Dowsing is a practice that brings us very much into our present moment, be it looking for water, finding earth energies or discovering remedies to alleviate certain physical or mental suffering. As we tune into the energetic vibration around us and ask our questions we are totally aligned with the here and now. We are totally given up to what is around us and it is a great way to train the brain to stop all its goofing around as we focus on being totally calm, open and with the specific intent to discover whatever it is we are looking for.

And yet no-one would say that dowsing is an ordinary pass time. It’s an extra-ordinary activity for sure and one that we can all enjoy without having to go anywhere or do anything special, which has been a bonus in these Covid times!

So, whip out your dowser and get practicing on living a life considerably less ordinary.
