DSV philosophy: Through awakening consciousness, we are empowered with knowledge and skills to unconditionally serve others

Sunday 26 September 2021

PRESIDENT'S REPORT

Our July meeting had to be cancelled due to another lockdown. We had just one week without severe restrictions and then the rules changed. We were locked in again, with so many shops shut down, children back to home schooling and so on. Melbourne is in its sixth rekindled lockdown since March 2020 and as I write was just extended for a further two weeks. This time a curfew has been imposed so that we're not allowed outside between 9pm and 5am. Playgrounds and kindergartens have been closed.

I'm sure if you're in Melbourne, you're also feeling fed up with lockdowns. It's very tedious. So many businesses are struggling and a great many have closed permanently. There are lockdowns of varying degrees around Australia.

We know things have to change to create the new world we'd been promised for so long (though not via mainstream media). Yes, we do have to break down old paradigms to create new improved ones. We must raise our frequencies to match those of the Earth. We are encouraged to visualise the new planet that we want to create using lessons we're hopefully learning during these stressful times.

Meanwhile, if you can, please join Heather Wilks and me with others from Australia and overseas each week for a short dowsing session to address the energies associated with the pandemic. This is an initiative developed 18 months ago by one of Heather's dowsing students, Frances Peterson.

You can join in either live on the call – or dowsing along with the replay later. The group meets at 12 noon Friday AEST (in the US, Thursday US 7.00 pm PT and 10.00 pm EST). Details are available on three Facebook pages:

- 1 "Heather Wilks"
- 2 "Dowsing for Healing Australia and Beyond" (Frances Peterson)
- 3 "How to Dowse with Rods and Pendulums" (Mick Moran)

If you prefer to avoid Facebook, you can go directly to Zoom with these details:

Join Zoom Meeting: <https://us02web.zoom.us/j/82228820878...>

Meeting ID: 822 2882 0878 Passcode: 324825

Here's hoping we'll be able to meet on 26 September for our next scheduled DSV meeting.

Lyn Wood, President

NEXT MEETING

Time & Date:

1.30 pm for 2.00 start, Sunday 26 September 2021

Place:

**Mount Waverley Community Centre,
Miller Crescent, Mount Waverley**

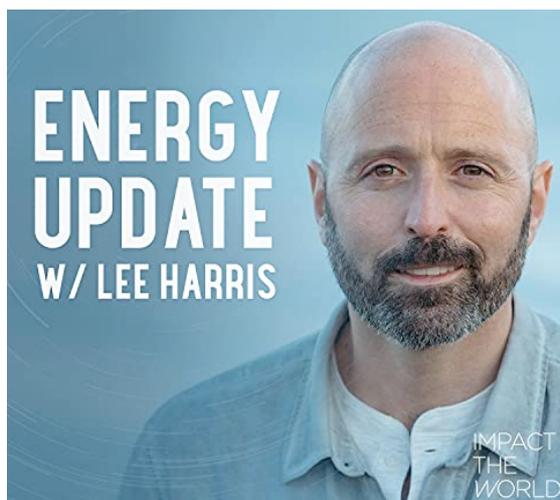

(Opposite Mount Waverley Railway Station) Melways: 70 E 1

OUR NEXT MEETING

We have really great news about our plans for the next meeting – surprisingly, whether that happens this year or next!

The wonderful news is that for our next meeting, however far down the track, we will be showing a brilliant video which you probably won't have come across. While it's not about dowsing, we believe it will help lift you out of the doldrums in a dramatic way.

We've received permission to screen a film by Lee Harris, *The Energy Guide*, interviewing Anita Moorjani who is best known for surviving a Near Death Experience (NDE). It is a very uplifting interview, encouraging us to release the beliefs and fears that keep us from living life with more joy. Perfect timing, we believe!

Lee Harris began doing intuitive readings from his home in England in 2004. He now lives in California. He has expanded from his part-time healing work to an established company with an international team. Lee's aim is to help ground creative spirituality in these challenging times and to encourage others to experience more impactful and abundant lives while supporting each other through community.

Lee's monthly online Energy Updates are wildly popular: www.leeharrisenergy.com

Anita Moorjani

Anita Moorjani is an international speaker, a cancer survivor and author of several books. Born in Singapore to parents from the Sindh in India, she grew up and was educated in Hong Kong, in English.

Anita is a truly inspirational, delightful person who helps sensitive people who are looking to harness their gifts of intuition and empathy in today's harsh world: www.anitamoorjani.com/

Naturally, we won't know whether the DSV meeting planned for 26 September will proceed until a few days' prior. An update will be posted on the DSV site, so please check online (call a friend who has computer access if need be) for confirmation.

If there's one thing we're learning throughout this whole ordeal, it's about becoming more flexible. "Bending our knees", as DSV Committee member Lynne Fitzgerald cleverly calls it!

Gently Does It

USING DOWSING TO CUT YOUR HEATING BILLS

Thanks to Bev Ellison, DSV Committee Member, for sourcing this article by Paul Craddock, "Dowsing Today"

Dowsing can help in many areas and is adaptable to our current needs in these worrying times. And surprisingly, it can be used to increase the temperature of your home, saving you money on your fuel bills!

Background

In 1982, the late P. Tabraham published a booklet on 'Solar Energy & Dowsing in the Isles of Scilly'. This was followed by an addendum in 1992. (*Sadly these are now out of print*). The booklets document the research and methods used by farmers to raise the soil temperature, in order to get their flowers to bloom in time for the lucrative Christmas market.

Traditionally, they had burnt straw in mid-summer on the growing area, and for an unknown reason this had the desired effect. Eventually this became uneconomical, and they experimented with other methods such as using gas burners and polythene sheeting.

This had limited success. The research continued, and it was found that by using dowsing rods it was possible to detect the areas that had been burnt over in June, when dowsing in January - to the exact inch! Experiments found an increase in soil temperature in these areas of plus 20F.

They were able to confirm through research, that the dowsing effect was linked to the temperature rise in the soil, and that it was long lasting into the winter. After an unusual period of snow, they came to the conclusion that the dowsing effect caused the temperature rise, and was able to protect the plants during cold weather.

It was also found that metal could conduct this dowsing effect, and could drain it away.

Method

As it was now clear that the dowsing effect was causing the rise in temperature, research into the dowsing literature was conducted, and it was discovered that all that is required is to draw out a five-sided figure, a pentagon. It can be drawn with a pen on paper, a stick on the ground, or just by marking five points on the ground to form the outline of a pentagon, while walking around a large field or the outside of your home and/or garden.

Practicalities

I have used this method with other dowsers 'on and off' over the years, and usually managed a 20F increase, but haven't always made the five pentagons. Often it is not possible to walk right around your home on the outside, if it is semi-detached or a flat for example. In this case, draw a plan of your building, then draw in the pentagon enclosing the area in which you wish the temperature to be raised.

Action

So there you are, go and try it! It works for the Scilly Isles farmers and helps them get their flowers to market early. The scientific evidence is documented in the booklets mentioned.

ENVIRONMENT THROUGH POSITIVE SELF-TALK

By Shelly Wilson. Reprinted from the Ozark Research Institute, Winter 2020 (Thanks to NSW Dowzers for sharing this article.)

Being human can be tough sometimes and so can this journey into consciousness. Many times, we are all too hard on ourselves.

We are strong enough to endure this human life experience, and we need to love others and to express that love, but find it challenging or uncomfortable to feel that same love for themselves.

Love is a feeling, an emotion, a state of being. When we focus on loving ourselves, this feeling is empowering. It is really self-love.

Take a moment to consider these questions for yourself:

- *How do you view yourself?*
- *What does your self-talk sound like?*
- *Is it negative/critical or positive life-affirming? It is time to acknowledge and then banish the negative self-talk which is often detrimental to our psyche, well-being and overall physical health. Then, we can make the choice to re-direct the energy emission to one of self-love, compassion, positivity, empowerment, and kindness.*
- *Actively choosing to engage in positive self-talk will make us feel good about ourselves and the life we are living.*

“Turn down the volume of your negative inner voice and create a nurturing inner voice to take its place. When you make a mistake, forgive yourself, learn from it and move on instead of obsessing about it. Equally important, don't allow anyone else to dwell on your mistakes or shortcomings or to expect perfection from you.” ~ Beverly Engel

Subsequently, we must see ourselves as the beautiful, miraculous creations that we are. Recognise that there is no one else in the Universe exactly like you. Celebrate the unique and diverse being that you are. Accept your uniqueness and dismiss any perceived flaws or imperfections because you are perfect just the way you are. Individually, we can each choose to accept and embody the unlimited power of our inner spirit by declaring an empowering statement, such as one of the following statements:

I am unconditional love. I am energy. I am beautiful. I am amazing. I am confident. I am empowered. I am joyful. I am successful. I am smart. I am attractive. I am resourceful. I am healthy. I am creative. I am finan- coaly stable. I am happy. I am loved. I am wonderful. I am making a difference in the lives of others.

What words do you wish to embody?

“My challenge to you today is to observe your thoughts and internal dialogue, and recognize if and when you speak poorly to yourself. We all have moments of self-deprecation and very often we are too hard on ourselves.

Today, start to be caring and supportive of yourself. Observe that little voice in your head and, say something positive to yourself instead!” ~ Elaine Seiler

Shelly Wilson is an author, intuitive medium, spiritual growth coach and conscious creator who is passionate about helping people wake up to their greatness. She supports others as they navigate their own journey into consciousness to experience aliveness.

Shelly's newest book, 'Embracing the Magic Within', and accompanying 'Clarity Cards' are now available.

READY TO BECOME OUR NEXT DSV NEWSLETTER EDITOR?

We are still actively seeking a new Editor to take over my role for the DSV Newsletter. It's actually a great opportunity for someone with new ideas and fresh skills.

What do you find yourself going back to with dowsing because it works?

I invite you to share your personal dowsing experiences for the DSV Newsletter.

Alternatively, you can send me interesting information you've come across, provided you've requested approval to reprint it. Just email me: heather@ohnaturale.com [Ed.]

To become a new member please download the Membership Form from our site: www.dsv.org.au

THE DSV SHOP

Just to mention we won't be arranging new stock of Raymon Grace's valuable DVDs in future as he's now only offering those as online downloads. Fortunately, we still have some available for purchase, so do be quick before they sell out at the DSV.

Happily we have Raymon's three books available, as well as a couple of his Bobbers. Plus other dowsing books and tools, including Mick Moran's wonderful brass rods.

DSV LIBRARY

The DSV Library is very popular with DSV Members as there is such an extensive range of interesting material. Our Library maintains an extensive range of excellent dowsing books, reports and other fascinating references. As a DSV member you are entitled to borrow any of our library items.

This is an EXTRACT from the September 2021 DSV Newsletter. By becoming a DSV member, you'll receive six full copies a year. Download a Membership form on the Home Page of this site.

**The next DSV 2021 meetings : Sunday 26 September, 28 November
2022 dates: Sunday 13 February, 27 March and 29 May**
