DSV philosophy: Through awakening consciousness, we are empowered with knowledge and skills to unconditionally serve others

Meeting: Sunday 13 February 2022

PRESIDENT'S REPORT

Hopefully you celebrated Christmas and the start of the New Year well. Perhaps those occasions were similar to other years.

As dowsers we need to remember that we can change energy. It's such a good time to question what we hear. We have the tools to use – pendulums, rods or bobbers. By carefully listening, our inner knowingness can alert us to being more aware of when something isn't right.

I've learned from various Astrology reports that there has been a drop in the magnetic field protecting the earth from solar radiation, and that it's possibly causing problems for satellites. It is believed that this could mean the north and south axis are changing positions.

This is something which Gregg Braden – best-selling author, scientist, international educator and renowned pioneer in the emerging paradigm – has been talking about for many years. It is something that happens naturally at intervals of thousands of years. Added to that, the Schumann resonance, or earth's frequency is rising so we need to match our bodies with it. We can raise our frequency by being happy and helping others. In other words, delighting in the old way of doing things. This is all leading us to 5D reality.

I truly believe that this turbulence is happening for a reason. It's important to aim for more happiness, interaction with friends, taking time out and of course dowsing to scramble the energy, whatever is needed.

We are so pleased to announce that our guest Zoom speaker is Alan Handelsman from Phoenix, Arizona. He will present on Focus, Intention and Intuition. Please join us for this special event on 13 February.

THE ELEPHANT ROPE

A man was walking through an elephant camp, and he spotted the elephants weren't being kept in cages or held by the use of a chain.

All that was holding them back from escaping the camp, was a small piece of rope tied to one of their legs.

The trainer explained: When they are very young and much smaller we use the same sized rope to tie them and, at that age, it's enough to hold them. As they grow up, they are conditioned to believe they cannot break away. They believe the rope can still hold them, so they never try to break free.

The only reason the elephants were not breaking free and escaping from the camp was that over time they adopted the belief that it just was not possible.

Moral of the Story : No matter how much the world tries to hold you back, always continue with the belief that what you want to achieve is possible.

WISDOM

Dr. David Hawkins was a psychiatrist, spiritual teacher and director of the Spiritual Research Institute in the US. In 1994 he wrote the book "Power Versus Force."

In it, he presented "The Map of Consciousness" a chart of vibrational frequencies and their characteristics, which he derived using applied kinesiology on thousands of people over 20 years of research.

UK Astrologer Pam Gregory has shared some of the specific characteristics from Dr. Hawkins. You can view it here: <https://www.youtube.com/watch?v=6PbEsJGk8II>

THE GUEST HOUSE

This being human is a guest house.

Every morning a new arrival.

*A joy, a depression, a meanness, some momentary awareness comes
as an unexpected visitor.*

Welcome and entertain them all!

*Even if they are a crowd of sorrows, who violently sweep your house
empty of its furniture, still, treat each guest honorably.*

He may be clearing you out for some new delight.

The dark thought, the shame, the malice.

Meet them at the door laughing and invite them in.

Be grateful for whatever comes.

Because each has been sent as a guide from beyond.

FOR STILLNESS & PEACE

Shared with kind permission from the Tucson Dowzers' December 2021 Newsletter.

This is a special gift from US healer, Joachim Wippich. While dowsing to investigate letters of the alphabet, he found that the Capital Letter **J** is the most appropriate to help in creating more stillness and peace.

You can create your own sphere with a **J** (the **J** needs to have the cap on it) and use the intention of Stillness and Peace. The Tucson Dowzers used Christmas decorations and gave those as gifts. As the festive season has since ended, you could just borrow the approach, drawing a **J** on the back of a smiley ball (or similar) and use superglue to stick it to a piece of white card to hold it firmly in place.
