## **PRESIDENT'S REPORT**

I trust that life is treating you well personally. While many are still adversely affected worldwide, the horror of the past two year's pandemic seems to be easing for now, thank goodness.

In Australia, we're now battling the flood situations in Queensland and NSW. People from near and far are jumping in to provide assistance with the overwhelming clean up and helping to provide many necessary supplies.

On the world stage there is the escalating war between Russia and Ukraine which is terrifying, especially for the rest of the Europe. We can't know the actual truth behind this situation, but it's horrendous for all the people caught up in it.

Even though there are so many dreadful things happening and it is very challenging, we can see there is also a lot taking place that's looking like the end of corruption and dishonesty in leadership. We seem to be starting to truly appreciate what is really important in our lives. I live in hope that this is the dawning of a wonderful new era.

We will hold our first online Annual General Meeting at the beginning of our next DSV meeting on Sunday 27 March.

We'll begin a few minutes earlier, at 1.40 pm to start the AGM. We will keep the formalities as short as possible. Our guest speaker is Martine Negro. Martine is the President of The Dowsers Society of NSW Inc. I'm looking forward to hearing all she has to share.

We are grateful to Vice-President Heather Wilks for creating a DSV YouTube Channel. Meanwhile you can view Alan Handelsman's February presentation here: <https://www.youtube.com/watch?v=Bg49pqvlfK4>

And look for Lolita Gunning and Mick Moran's talk of last November at this link: <https://www.youtube.com/watch?v=OyqHWgbAjwo>

Be great to see you via Zoom for our March meeting for Martine Negro's presentation.

## OUR NEXT MEETING

**Our next meeting on Sunday 27 March will be our first AGM via Zoom. Votes will be counted by the showing of hands. We're aiming to keep the formalities short. We're all keen to move onto the day's main feature. To be eligible to vote or nominate for the DSV Committee, you need to be a paid-up member. We invite you to consider standing for a position yourself.**

**Joining us gives you the opportunity to contribute directly to the DSV to learn and share dowsing experiences and suggestions for going forward.**

We are delighted that Martine Negro, the President of The Dowzers Society of NSW Inc., will present to us via Zoom on Sunday 27 March.

Martine's presentation will focus on "the 4 Steps of Energetic Management" for optimal health. This is to be based on her book, "Hacking the Well-Being Code through Energetic Intelligence" (2016).

There's always lots for us to discover. We hope you'll join us for yet another fascinating DSV Zoom meeting. Make a note in your diary!

## OUR LAST MEETING

In his presentation to the DSV on 13 February Alan shared useful insights and practical tips to help us to achieve a more focused state of mind when dowsing, to eliminate unwanted emotional energy, and to amplify intention for better and more consistent results.

You can watch the replay of his February online presentation to us on the DSV's new YouTube Channel: <https://www.youtube.com/watch?v=Bg49pqvlfK4>

## WEEKLY ONLINE DOWSING

Each Friday (12 noon AEDT time) Heather Wilks and fellow dowser, Frances Peterson, hold a short online dowsing session to address the energies associated with world problems. It began with addressing covid issues and has now extended to cover other problems that are presently weighing on us all.

Heather provides a guided group visualisation after the dowsing each week. It's to encourage us to imagine how we'd like things to transform for a new Golden Era.

A number of DSV members, along with dowsers from around Australia and overseas, meet on the call when time allows.

You're invited to join in at 12 noon AEDT. Just go directly to Zoom with these details:

## FORBIDDEN CURES

*About Georges Lakhovsky, Bioelectric Pioneer (1869-1942)* By Canadian writer Ken Adachi

What George Lakhovsky discovered was astonishing. He postulated that all living cells (plants, people, bacteria, parasites, etc) possess attributes which are normally associated with electrical circuits. These cellular attributes include *resistance*, *capacitance*, and *inductance*.

These 3 electrical properties, when properly configured, will cause the recurrent generation or oscillation of high frequency sine waves when sustained by a small, steady supply of outside energy of the right frequency. This effect is known as resonance.

It's easiest to compare it with a child swinging on a playground swing. As long as the parent pushes the swing a little at the right moment (the correct 'frequency') the child will continue to swing high and continuously. In electronics, circuits which generate these recurrent sine waves can be called electromagnetic resonators, but more commonly they are referred to as oscillators.

## CONTRIBUTE TO OUR NEWSLETTER

No doubt you have regular dowsing practices that you return to often because they work. Now is a great time to share those and inspire others. Please share your personal dowsing experiences for the DSV Newsletter.

I always appreciate contributions and DSV Committee Member, Bev Ellison is so helpful. She kindly provided the article about Georges Lakhovsky for this issue.

Please send me interesting information you come across (provided you've requested approval to reprint it). Just email me: [heather@ohnaturale.com](mailto:heather@ohnaturale.com) [Ed.]

## RAYMON GRACE DOWNLOADS

While we still have a great range of items available in the DSV Shop, no one is able to access them at the building at this time.

In the meantime, if you are looking for some of Raymon Grace's products, you can now download some DVDs and books directly online.
