PRESIDENT'S REPORT

Recently I was part of a Zoom call to dowse on the many wildfires raging around the world. Our V-P, Heather Wilks, arranged it with the Canadian dowser who set it up for a time to suit us Aussies.

There has already been feedback of lowered temperatures in some regions, which is a great outcome. Thanks to the miracle of Zoom we can join with our dowsing friends across the world to help bring about vital changes. You can email Heather: heather@dowsingheals.com to be added to the list of contacts to receive the details.

An important event coming up in Australia on 14 October is the Voice referendum. Here is our opportunity to dowse on the best vote for the highest good.

We were all enthralled to hear Cat Vermeer's journey with her "Harmonize Me" Auric sprays at the last DSV meeting. Many lined up to buy Cat's products.

Caroline Pope will be our next speaker at our September meeting. She has been doing so much good work communicating with animals, for years. I am interested to reconnect with her and hear what she has to share.

Lyn Wood, *President*

OUR NEXT MEETING

Caroline Pope will present to the DSV at our next meeting on 17 September.

Caroline is a professional Animal Communicator, Craniosacral and NES Therapist with 25 years' experience in working with both animals and their human guardians. She has a background in animal behaviour training and veterinary nursing and she liaises with Veterinarians regularly.

Caroline will focus on:

- What Animal Communication is.
- Who can Communicate with Animals.
- How we incorporate Animal Communication

- Boundaries to communicating with animals.
- Understanding species differences.

Caroline's presentation will describe how to communicate psychically with our beloved pets and other animals. You'll find more details about Caroline's here: <https://www.caroline-pope.com/>

OUR LAST MEETING

Cat Vermeer was our presenter on 23 July, talking about her range of Auric sprays called "Harmonize Me".

As part of her story which led to her developing her products, Cat generously sprayed different essences so that we could experience their beauty and their power together at the meeting. For each of her essences she provides written details and a "Mantra". A popular essence was "Sage Me". For more details about Cat and her range: Website: <https://harmonizeme.au/collections>

GEOSPIRALS, SACRED STONES, MESSAGE ROCKS AND PORTALS.

Our Forgotten Connections to Subtle Earth Energies by Richard Clarke

Thanks to DSV Committee Member, Bev Ellison, for sourcing this article.

Science claims that we have five senses and we experience the whole of the world through these five senses. Our brains have an organ called the pineal gland that is shaped like a pine cone and located approximately behind the eyes. Hence, it is commonly called the 'third eye'. Until recently science did not understand the function of the pineal gland, but it now says it plays a role in the regulation of melatonin, which controls our sleep patterns.

Ancient cultures have known about this gland for a very long time and depicted it in their artwork as a pine cone. The Egyptians represented it as the 'Eye of Horus'. The ancients placed a great importance on the pineal because they said it connected us to the 'spirit world'. For some people, this 'sixth' sense is still active, however for most people, particularly those from Western culture, it remains dormant.

We all have this psychic ability, but due to the hectic pace of modern society, we rarely have time to explore these realms. Also, the pollution of our bodies and our environment due to chemtrails, fluoride, pesticides and microwaves interferes with its function.

Original Australians say that we are born with seven senses and that the other two are used for connecting to the 'other side'. Karno, a high initiate Ramindjeri elder, said he was able to do certain things that defy the laws of modern science because "I come from both sides. You white fellas can do these things too but don't realise it yet because you are stuck in the physical."

I am part of a group who, with permission of the original elders, investigates sacred sites, concentrated in the Kariong area (central coast of New South Wales, Australia). Before going onto 'country' we always conduct a smoking ceremony to pay our respects to the spirits of the land and let them know we have good intentions.

WEEKLY ONLINE DOWSING x 2

1. Each Friday (12 noon AEST time) Heather Wilks and fellow dowser, Frances Peterson, hold a short online dowsing session to help in raising consciousness and supporting a new Golden Age.

It begins with a Full Court of Atonement (FCOA) (based on the channelled work of Amy Jo Ellis www.courtofatonement.com)

Currently in the US the group meets on Thursdays at 7pm Pacific, 8pm Mountain and 10pm Eastern time.

After the dowsing, Heather provides a guided group visualisation. It's designed to encourage us to imagine how we'd like things to transform for a new Golden Age.

You're invited to join in at 12 noon AEST (Melbourne, Sydney, Brisbane, Canberra time). Just go directly to Zoom with these details:

Join Zoom Meeting: <https://us02web.zoom.us/j/82228820878...>

Meeting ID: 822 2882 0878 Passcode: 324825

Alternatively, you can later watch and dowse along to the replay on Facebook.

Go to *Heather Wilks'* Fb page, or "*Dowsing for Healing Australia and Beyond*" (Frances Peterson's Fb group) and/or "*How to dowse with rods and pendulums*" (DSV Life Member, Mick Moran's Fb group).

2. Each Wednesday (12 pm AEST time) Heather Wilks, and sometimes other Aussie dowsers, join in for Zoom Weather Dowsing with the Tucson Dowsers.

In the US that's Tuesdays at 7pm Pacific, 8pm Mountain and 10pm Eastern time.

<https://us02web.zoom.us/j/82722474993> Zoom Meeting ID: 827 2247 4993

DOWSING THE AURA

Thanks to Committee Member, Bev Ellison for also kindly sourcing this article:

Holding the rods comfortably and loosely at mid-chest height, stand some distance away from the person whose aura you want to detect. Seven to ten metres (twenty to thirty feet) away would be good, but it will still work in a more restricted space, although you may not find the outer layer.

ask permission first (even if you feel silly doing so). If you sense any discomfort, or even get a "no" in your head, then choose another plant. Penelope Quest: <http://www.reiki-quest.co.uk/>

DSV SHOP

For our next meeting in person on 17 September in Mount Waverley you'll have an opportunity to access our range of books, DVDs and more.

**This is an Extract of the September Newsletter.
By joining us you'll receive six full copies a year.**

**The next DSV 2023 meetings : Sunday 17 September, 26 November
Some DSV meetings for 2024: 11 February, 24 March, 26 May**
